Kim called the Site Walk to order at 9:00AM. The group walked to the tower location and viewed the area and listened to Mr. Kozyra describe the new tower location.

There was a crane erected but the weather was so bad and the visibility was so poor that the test was suspended until Sunday the 13th.

AD Klumb Environmental will take photos of the crane from points all over town to show where it is visible.

Meeting adjourned at 10:00am
