The Site walk was called to order 6:00pm

Planning Board Members met with the O'Connor's and Mr. Van Dyke on White Tail Run and walked the property.

Mr. and Mrs. O'Connor expressed concern of additional cutting on the property and the trail, which appears to direct people on to their land.

Mr. Van Dyke said that any additional tree cutting would be limited to creating a 12' wide swathe to allow access to and from the well house and the house envelope and 20' behind to allow for a yard.

Mr. Van Dyke agreed to show the location of the pump house, and the road to the pump house on the plan.

The plan will need to be corrected, as it shows cutting within the 100' vegetative buffer. Cutting is not allowed in the buffer and vegetation must be kept in its natural state.

Site Walk adjourned 7:00pm
